

My life changed forever on August 20, 2007 (our 42nd wedding anniversary) when my left leg was amputated above knee.

I have been a patient at Perry Prosthetics for over three years now and I can truly say he goes over and above the call of duty when it comes to his patients.

Meeting Chris for my first consultation I felt that there was a connection right away. Being an amputee himself I felt like he understood all the concerns I had.

After month of going through the fitting process of my prosthesis and physical therapy I was having problems with my residual limb. Chris recognized that something was wrong and made it possible for me to see Dr. Ertl in Indianapolis, who did revision surgery on my residual limb in 2009. He is a well known surgeon for this type of surgery and it was well worth the wait.

I enjoy very much going to the Amp-U-Fitness™ Walking Clinics for the camaraderie and all the help I'm getting in learning better walking techniques.

I'm really glad to have listened to the nurse (on my 6 weeks post amputation check up) telling me to check out Perry Prosthetics. Chris and everyone on his team are very dedicated to the work they are doing. Thanks to all of you at Perry Prosthetics.

Claudia McCoy
